

IRRADIATION COMMENT FORM

attention FDA: keep irradiation labeling!

Re: Docket # 98N 1038,
"Irradiation in the
Production, Processing,
and Handling of Food"

4686 99 JUN 22 P 1:47

believe the FDA should keep its requirements to prominently label irradiated packaged foods and non-packaged foods by always displaying the radura logo along with the words "treated with irradiation." I feel alternative terms such as "cold pasteurization" are misleading and should never be used.

Please mandate that labeling contain info on irradiation. If it is not harmful, why are the food manufacturers afraid to put it on the label?? We are smart enough to make our own decisions about irradiated foods IF we are given the proper facts on the label!
